

Richard Boscarino

Richard Boscarino is the Department Manager of Operations Emergency Management at Consolidated Edison Company of New York, Inc. During his 20 plus year career in the utility industry, Mr. Boscarino has held numerous positions in Engineering, EH&S, and power plant management. Additionally, prior to his current role, he was the Operations Manager for Steam Distribution where he oversaw system planning, maintenance, outages, and routine and emergency operations.

In his current role, he is responsible for planning, implementing, and overseeing emergency management activities for the Company's Steam, Gas, Transmission, and Substation Operations organizations. Mr. Boscarino works closely with federal, state, and local agencies such as New York City Office of Emergency Management, Westchester County Department of Emergency Services, New York State Department of Homeland Security and Emergency Services, and Westchester County municipal officials and OEM personnel.

He holds a Master of Public Health (MPH) in Environment Health Science from New York Medical College, and a Bachelor of Science (BS) in Public Safety from Mercy College.
