Companies utilizing Microgrids to achieve their energy strategies for the 21st century
David Chiesa, S&C Electric

Thousands of stakeholders are benefiting today through Microgrids. Microgrids have revolutionized the way power is produced, delivered and consumed. This discussion will walk you through the key drivers for why a microgrid, what types of microgrids there are and how a microgrid is developed. Examples will include single buildings, campuses and community microgrids including one customer to thousands.

Case Studies:

Ameren: The Nation's First Cyber-Secure Utility Microgrid

Oncor: Utility Microgrid

IIT: University Microgrid

Santa Rita Jail: C&I Microgrid

Fort Belvoir: Military Microgrid

Minster: Community Microgrid

Keywords: Microgrids, Cybersecurity
