

# Overview of MRC Activities

---

Supporting and Streamlining  
Microgrid Project Development &  
Finance with Regulatory Actions

# Working as the Voice for the Microgrid Community

---

- **MRC is the voice of the microgrid community in regulatory & legislative proceedings**
- **Represents the entire microgrid community from developers and hosts to suppliers and investors**
- **Technology and ownership neutral, we seek a fair market playing field for all microgrids and the removal of development barriers**

# Working as the Voice for the Microgrid Community

---

- **Advocating for microgrids as resources to their hosts *and* the grid**
- **Ensuring microgrids are a cornerstone of grid modernization & resiliency proceedings**
- **Working to make sure regulations and tariffs reflect the real-world capabilities and service benefits of microgrids**

# Working as the Voice for the Microgrid Community

---

- **We represent microgrids in front of:**
  - State Public Utility Commissions
  - The Federal Energy Regulatory Commission
  - State Legislatures
  - Congress
  - State and Federal Agencies
  - Governors' Offices
  - Other stakeholders of all types

# Working as the Voice for the Microgrid Community

---

- **Working to unlock microgrid development pipelines and reduce project risk**
- **Each microgrid is unique, but their regulatory treatment should be clear, streamlined and standardized**
- **Working market-by-market to ensure microgrid products and services have fair access and value**

# Working as the Voice for the Microgrid Community

---

## Join us to:

- Expand and accelerate your microgrid development activities
- Support market growth for your microgrid equipment, software, and service offerings
- Educate your customers and regulators on microgrid capabilities & benefits
- Secure additional market pathways and revenues for your microgrid's operations

# Thank you
